

Monthly Technology & Connectivity Package for

1800 Oak Apartments

We recognize the power of technology and connectivity in daily life and strive to create innovative solutions that enhance how our residents live and work. That's why we've customized packages to elevate your lifestyle and provide seamless opportunities to thrive throughout our community.

Technology Features | \$20 / month

SmartHome

One app to manage access and atmosphere throughout your home with controlled keycodes, thermostat programming (if available), and add additional smart home features of your own! *(Powered by SmartRent)*

MyEquity Resident Portal

Stay connected through MyEquity to pay rent, submit service requests, connect with neighbors, find important information about your community, and more!

Connectivity Features | \$60 / month

High Speed Internet

High-speed internet (1GB) available in all resident units, common areas, and exterior spaces. Activate your own private network instantly for Wifi to follow you throughout the community, giving you reliably fast internet connectivity. *(Powered by Aerwave).*

The monthly technology package and connectivity feature is a required fee. The monthly amount of \$20 for the technology package and a monthly amount of \$60 for the connectivity package will be added to your resident statement to support the features available to you at the community. Please contact the leasing office with any questions.
